

LUSSO MISTO Sustainability Statement

At LUSSO MISTO, we are committed to upholding the highest standards of sustainability, ensuring that our impact on people and the planet aligns with our values of quality and integrity. We are proud to produce our cashmere products in Italy, adhering to rigorous Italian and European legislation. Our dedication to social and environmental sustainability is reflected in every step of our production process.

Social Sustainability: Our Impact on People

Ethical Production in Italy

We proudly manufacture all our products entirely in Italy, ensuring strict adherence to labor laws and human rights standards. Our commitment to ethical production guarantees safe working conditions and fair compensation for our employees, setting a benchmark for the industry.

By complying with Italian and European regulations on hazardous chemicals, we ensure a safe and healthy environment for our workforce.

Unlike brands producing in regions with less stringent labor laws, our employees enjoy fair wages and an 8-hour workday, fostering a culture of respect and dignity.

Pride in Italian Craftsmanship

The "Made in Italy" label is more than just a mark of origin; it's a symbol of unparalleled quality and craftsmanship. We take immense pride in producing 100% of our products in Italy, reflecting our commitment to excellence and ethical practices.

Environmental Sustainability: Our Impact on the Planet & Resources

Sustainable Raw Materials

We source natural and renewable cashmere, embracing sustainability at the core of our operations.

For larger orders, we offer certified SFA (Sustainable Fibre Alliance) cashmere, ensuring that our materials are responsibly sourced and environmentally friendly.

Compliance with Environmental Standards

Our dedication to environmental sustainability is demonstrated through our strict compliance with European REACH regulations. This ensures minimal environmental impact from the chemicals used in our production processes.

All dyeing mills we partner with are equipped with advanced water de-pollution systems, reflecting our commitment to water conservation and pollution reduction.

LUSSO MISTO Sustainability Statement

Transparency and Traceability

Transparency is key to true sustainability. We maintain full traceability of our products, from the raw cashmere fiber to the finished product. This ensures accountability and allows our customers to trust in the integrity of our supply chain.

Undyed and Natural Dyes

Our Collections feature undyed natural cashmere fibers in the elegant shades of Ivory, Ecrú, and Latte. This ensures that no chemicals come into contact with the fibers, preserving their natural beauty and purity.

We offer cashmere products dyed with natural pigments derived from plants, flowers, roots, and wood, such as the exquisite Blue Indigo. This method not only enhances the aesthetic appeal of our products but also aligns with our environmental values.

Recycled Cashmere

While we can produce items using recycled cashmere, we prioritize the creation of high-quality products with long lifespans. Recycled cashmere often compromises product durability, which we believe is less sustainable in the long term. However, we are always ready to accommodate customer requests for products made with recycled cashmere, ensuring that we meet diverse needs while staying true to our quality standards.

Certified Humane Rabbit Fur

Our commitment to ethical sourcing extends to our use of rabbit fur. We ensure that all rabbit fur used in our products comes with a certified humane certificate, guaranteeing the welfare and ethical treatment of the animals involved.

Oeko-Tex Certification

All our fabrics proudly bear the Oeko-Tex certification, a testament to our commitment to the highest European standards for health and safety. This certification guarantees that our textiles are free from harmful substances, ensuring they are safe for both our customers and the environment. By choosing Oeko-Tex certified products, you are investing in a healthier, more sustainable future.

At LUSSO MISTO our commitment to sustainability is unwavering. We strive to produce luxurious, high-quality cashmere products that respect both people and the planet.
